

Ask Me

The app made for SG seniors

Press Button

Minimal UI and AI chatbot reduces elderly's learning curve, making technology more accessible and empowering for elderly users.

AI Chatbox in Ask Me is trained to adapt to Singapore's multilingual culture, it understands various dialects and languages.

Voice Input

Video Tutorial

Based on user request, the app generates a concise video instructing senior user how to unlock modern technology.

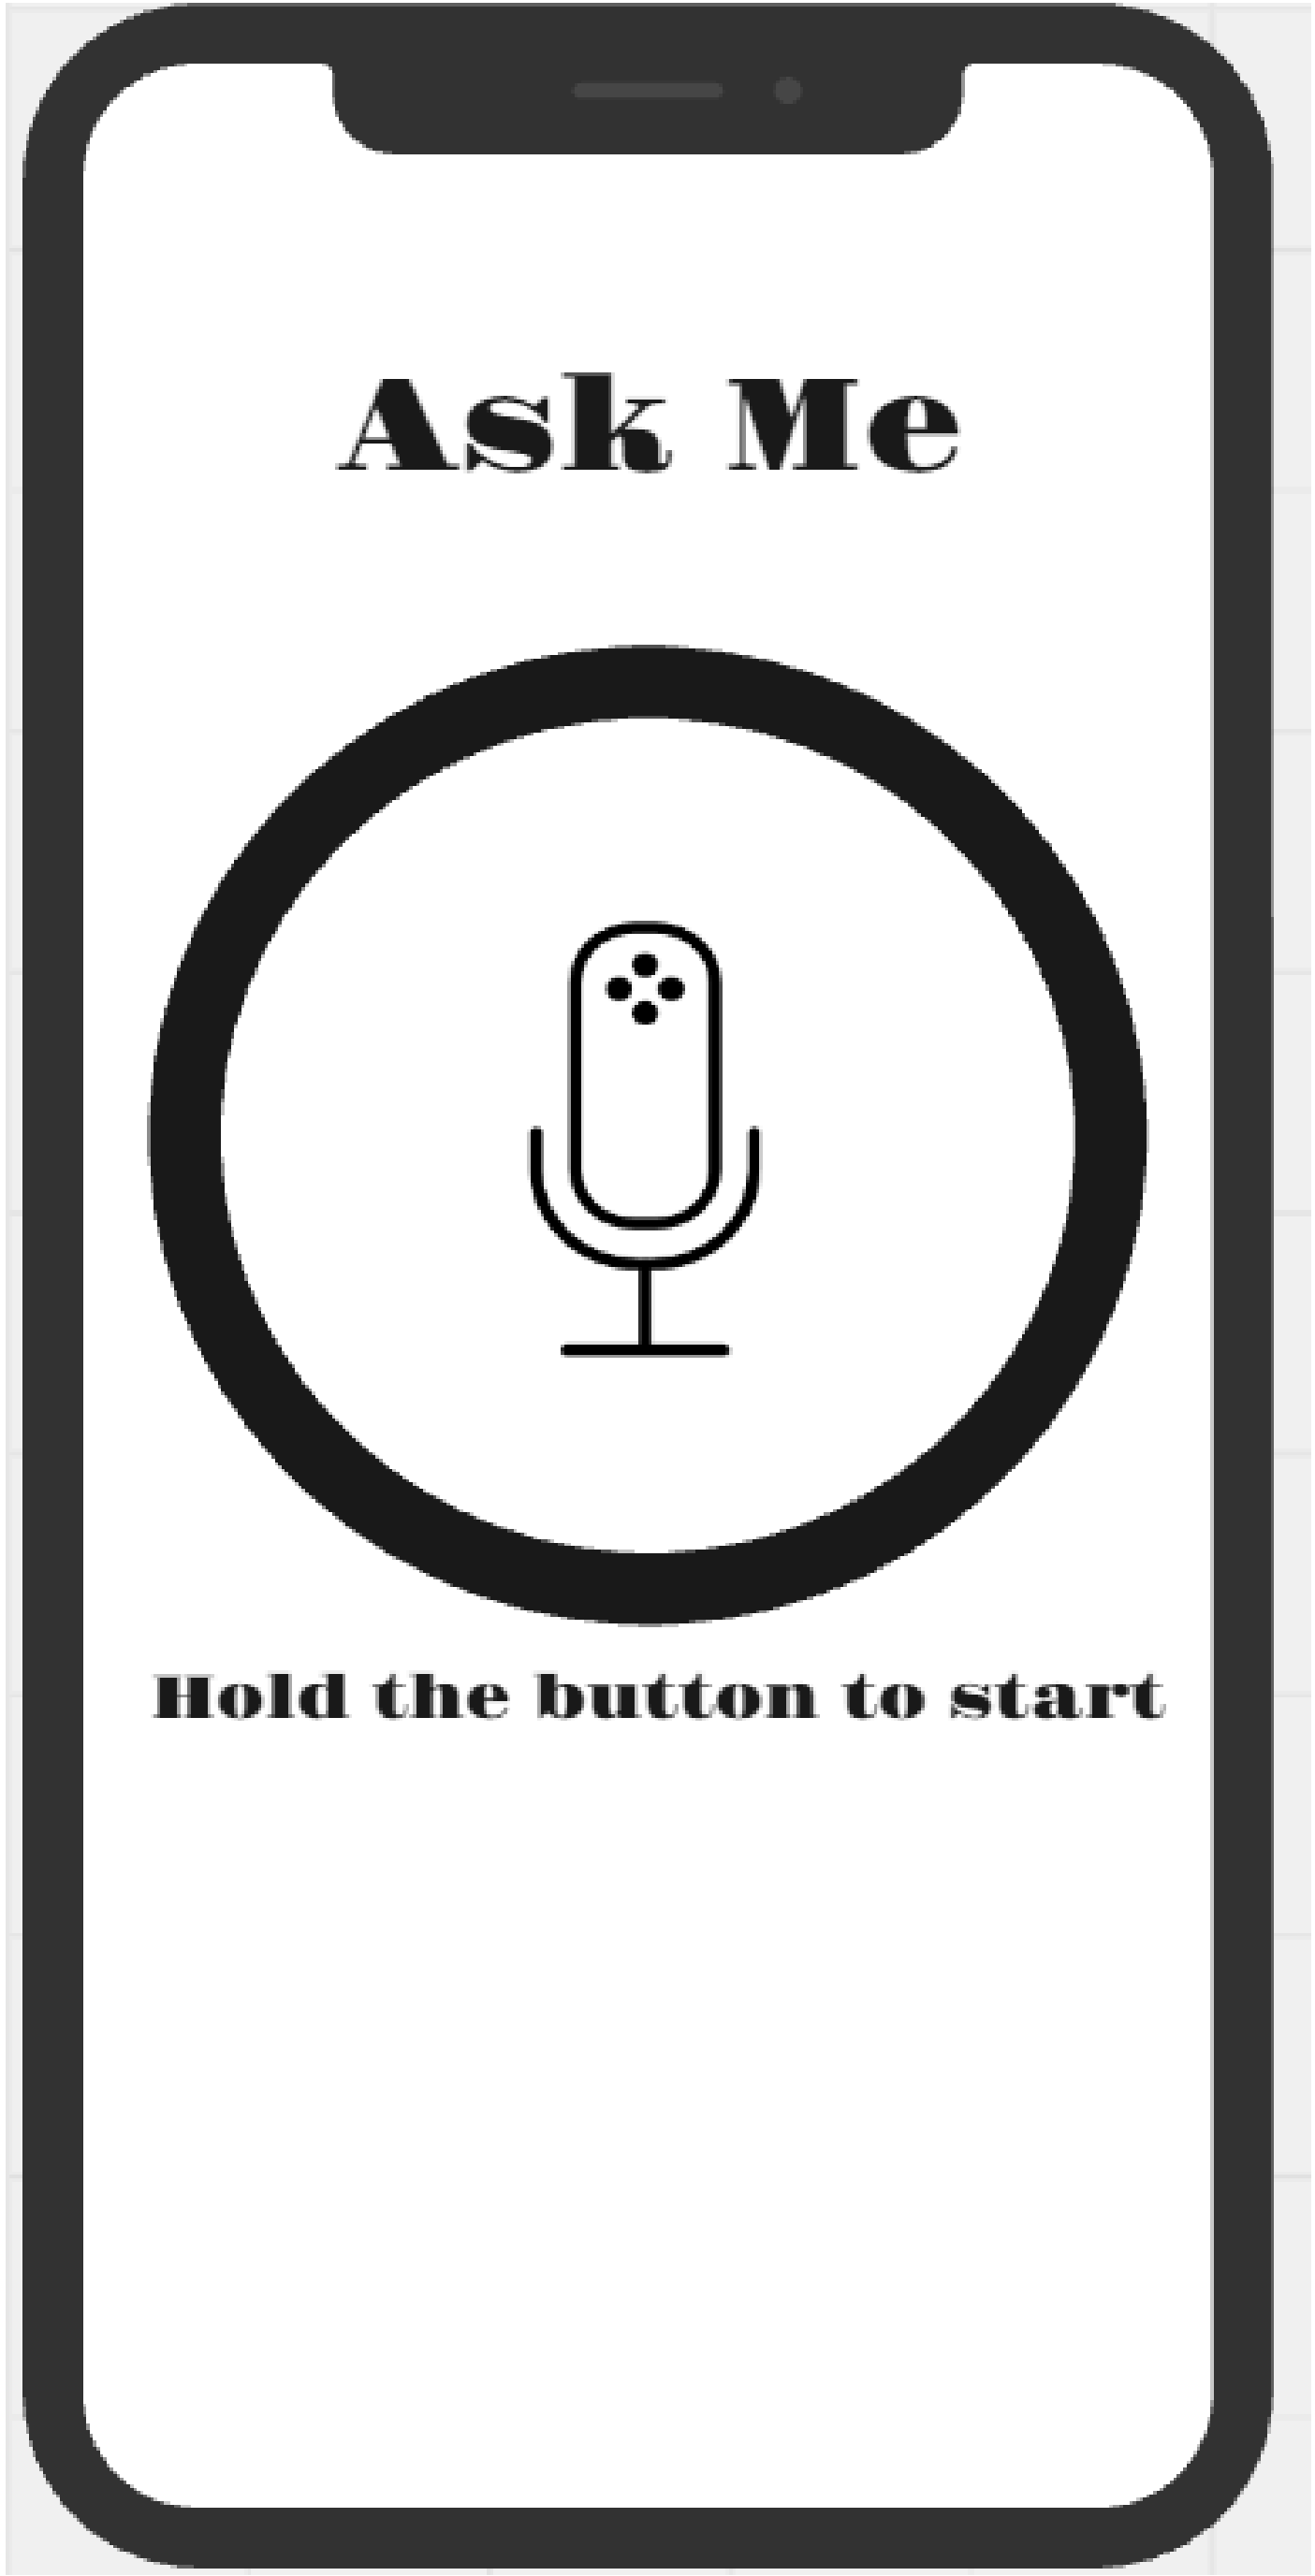

Empathetic responses in-built in Ask Me AI Chatbot, with whom seniors could interact without language barrier.

Companionship
